

**AMENDMENTS TO THE ABSTRACT**

Please substitute the following paragraph in the abstract now appearing in the currently filed specification:

On page 32, replace the paragraph beginning at line 6 with the following paragraph.

NE  
CB

The polyester film roll is a polyester film roll in which a polyester film is rolled on a core, characterized in that the difference  $R$  (m) between the maximum value and the minimum value is not more than  $2W \times 10^{-3}$  and not more than  $L \times 10^{-7}$ , when the diameters of said roll are measured in the width direction of the roll, (therein,  $W$  is the width (m) of the film roll, and  $L$  is the ~~rolled~~ length (m) of the rolled film ~~roll~~), or
